

Airbrushing

In order to stay current with the latest industry trends, professional make up artists need to command a mastery of emerging tools and products. The airbrush has grown in popularity, and is requested by brides, models, actors, directors, producers and more. This formative and engaging course introduces students to the mechanical aspects of the air brush, and teaches them how to use it in order to create dramatic effects.

Learners are given a solid understand of the tool and the materials it requires. From here the learner will be instructed in a versatile array of basic airbrush techniques, including basic beauty make up, bridal, body make up, character make up and stenciling.

The course is ideal for those wishing to add airbrushing to their services
